All dimensions are in mm (Dimensions may vary)

Large selection of timbers to choose from

Delivery can be organised normally within 7 to 10 days

Versatile Range
Bespoke Profiles
Range of Timbers

The CL Cladding range is a new and comprehensive selection of profiles that offers a warm and natural solution to any cladding project. The range includes profiles that are suitable for both internal and external applications and as we already have the tooling to machine the cladding and an extensive selection of timber in stock, we are able to deliver what you want when you want it. Whether it's mock Tudor or ultra modern we can produce it! Timber cladding is an excellent material that can help protect your home or outbuilding from the elements and provide a natural and warm internal environment.

CL Cladding Range

The CL Cladding range is a new and comprehensive selection of profiles that offers a warm and natural solution to any cladding project. The range includes profiles that are suitable for both internal and external applications, and as we already have the tooling to machine the cladding and an extensive selection of timber in stock, we are able to deliver what you want when you want it.

Bespoke Machining Service

Whether it's mock Tudor or ultra modern we can produce it! Timber cladding is an excellent material that can help protect your home or outbuilding from the elements and provide a natural and warm internal environment.

Our mill is able to produce waney edge fresh sawn cladding for restoration projects and new builds whilst at the same time our machine shop is able to produce cladding to either one of our own profiles or a bespoke section should you require it.

For more information please contact our sales team on:
Tel. 01455 209 121.
